

## CLARKE INFINITY HOME CINEMA PERFECTION

**The Background:** Clarke Infinity worked with the previous owners of Squirrels Oak and were called in when Darren and Lisa Wickins wished to turn their loft conversion into the cinema of their dreams. The couple wished to create a luxurious home cinema room – a haven to enjoy their passion for music and film.

**The Challenge:** To create a fabulous cinema in a room with a sloping ceiling and sky lights delivering both big sound and screen. Mr and Mrs Wickins wanted the cinema to look impressive and for the room to be comfortable and adaptable for all of the family to use. The system needed to be reliable, of high impact visually and ultimately user friendly.

“We love coming up with solutions that work for our clients and the Squirrels Oak home cinema certainly delivers and the client is delighted”

Simon Clarke, Founder, Clarke Infinity

### Our Services

- Site visit and survey
- Liaison with clients, interior designers, architects and contractors
- Bespoke design, quotations and installation by expert team
- Audio Visual systems
- Lighting
- Automation and control
- Home Cinema
- Security installations
- Telecommunication
- Full System Support
- User Training
- Turn-Key Solutions

**The Solution:** Clarke Infinity have high-end technical knowledge enabling them to design and implement state of the art solutions to best fit every client's individual needs. Delivering stunning sound was key; Clarke Infinity achieved this through nine Bowers & Wilkins speakers and a resonant adjustable trap system installed behind the screen for perfect bass. The impressive look was produced by a three metre wide screen highlighted by recessed lighting.

The screen was designed with hidden shelving and speakers with further speakers concealed by the Barrisol ceiling that not only is aesthetically pleasing but enhances the rooms' acoustics. Lutron Sivoia automated blinds coupled with the Lutron Grafik Eye and Lutron DMX systems were recommended by Clarke Infinity as the perfect lighting solutions with the ability to change colours and with pre-programmable options to suit the family on every occasion; whether the couple are relaxing watching a film or brighter lighting for when their teenage son is gaming.

### The Equipment

- Lutron Sivoia Blinds
- Lutron Grafik Eye Lighting System
- Lutron DMX System
- Sony 320es Projector
- Stewart 2900 Perforated Cinema Screen
- Bowers and Wilkins Speakers
- Yamaha RXA Amp
- RTI Remote
- Barrisol stretch PVC Ceiling and screen-wall

Darren Wickins said, "From start to finish the team at Clarke Infinity have been excellent, they understood what we wanted and made it happen – our expectations have been surpassed."
